Hi all, So I have a requirement for a barcode add-in that is going to take about 2 hours to implement. I am looking to see how the person that builds this Barcode Add-In can set this up for me to use right away. I have the dimensions, and the format of the barcode. I just need to know how it will work. Do I have to put in the barcode add-in installer, or will I get an option in Excel to use the Barcode as soon as I save the document? How can I save the barcode in the add-in for later use? Thanks for any help! Hi there, I recently released a barcode add-in for Excel, but I would like to offer my help to people who want to write one, so I have just created the open source Barcode Add-In Builder ( It is a simple add-in builder, but has all the features that are required to build a barcode add-in.
